A slap bracelet (or snap bracelet) is a bracelet consisting of layered,flexible stainless steel bistable spring bands sealed within a fabric or plastic cover. The bracelet can be straightened out, making tension within the springy metal bands. The straightened bracelet is then slapped against the wearer's forearm, causing the bands to spring back into a curve that wraps around the wrist, securing the bracelet to the wearer.

Usage

Instantly add safety to any activity with these handy, reflective snap bands. Use as a minimal wrist band to increase visibility at night. Ideal for running, jogging, cycling, and walking.

Great for carnivals, fiestas, jubilees, and entertainments, Enjoy without limit and keep the clapping sound fill up the place

Lightweight and easy to grip for an easy producing of strong noise while partying or having fun. They make a sharp sound when clapped. Let the party begin with a round of applause!
